PROFILE

Passionate **MERN** stack developer with strong skills in **JavaScript**, **HTML** and **CSS**. Experienced in creating responsive designs with **Tailwind CSS** and **Bootstrap**. Proficient in building user-friendly apps with **React.js** and robust backends with **Node.js**. Skilled in database like **MongoDB** for efficient data handling. Able to design **RESTful APIs** and manage MongoDB operations. A detail-oriented problem-solver who thrives in team environments. Familiar with **Nodemon** for smoother development. Eager to work on innovative projects.

SKILLS

- **Language:** JavaScript
 - **Front-End:** React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
 - **Back-End:** Node.js, Express.js
 - **Database:** MongoDB
 - **Version Control:** Git
-

EXPERIENCE

Intern Web Developer - MERN Stack

Infotact Solution (2025 – Present)

- Created responsive and user-friendly web pages with **React.js**, improving design flow and usability.
- Built **backend** features with **Node.js** and **Express.js**, making authentication and data handling more secure.
- Improved **MongoDB** queries to make the app faster and more reliable.
- Worked with the team on building new features, fixing issues, and enhancing existing projects.
- Reviewed and tested code to keep projects clean, scalable, and easy to maintain.

Intern MERN Stack Developer

Softroniics (2024 – 2025)

- Built and managed front-end features using **React.js** for a high-end investment platform.
- Connected **Node.js** and **Express.js** APIs to implement smooth and secure user authentication.
- Enhanced **MongoDB** query efficiency to boost overall app speed and user satisfaction.
- Worked closely with senior developers on design planning, code review sessions, and deployment workflows to meet project standards and goals.
- Participated in code reviews to maintain high quality standards and align with project objectives.
- Assisted in deployment workflows to deliver stable, production-ready releases on schedule.

PROJECTS

InsightFlow

InsightFlow is a full-stack social platform built with the **MERN** stack, enabling users to share and interact with **posts, blogs, and videos**. It features a responsive UI and supports user engagement through **likes, comments, and follows**. Integrated **AI tools** help generate smart **summaries, titles, and tags**, enhancing content creation. InsightFlow combines modern web technologies with AI to deliver an interactive and intelligent user experience.

Github: <https://github.com/Mridul2214/InsightFlow>

Project Management System

Built an **AI-powered** collaboration platform using the **MERN** stack, integrating multiple productivity tools to enhance team efficiency. Developed an **AI chatbot** to assist users with tasks and provide intelligent responses, along with a **To-Do** manager to track tasks and boost productivity. Created an interactive **whiteboard** and **document editor** for real-time collaboration, and implemented a **group chat system** to enable smooth communication among team members. Integrated **analytics** to monitor usage patterns and improve project performance, while designing a responsive interface and supporting testing and deployment for scalability.
